In the year 1945,
the gods sought to test
our steel. Struck down
by deceivers whilst our
backs were turned, we
were left for dead. But
in the wake of confusion
the fallen and the faith-
ful did band together, to
heal even stronger than
before. This was seen by
the gods, as the prophecy
of the sacred king shall
be fulfilled. WE HAVE

EDITORIAL - British Oi! No.28 - APRIL '94.

Comrades,

Firstly, many thanks for buying this zine the longest running zine in the world. Cheers for the great response to No.27, now down as the best selling issue of British Oi! to date, which just goes to show that at this time in the important stage in our struggle loyal comrades are supporting a zine that gives you no nonsense news and lots of it. This issue contains the usual 'Right Handed News' and a return of the record reviews, which was missed out in NO.27.

The reaction to the article 'Oppression' in NO.27 proved interesting by the volume of mail we received on the topic of the unfortunately cancelled Ian Stuart Memorial gig. We had several blow by blow accounts of what really happened down in London and proved to what extent the government will go to suppress our great Blood & Honour movement and the strong pride behind our army of supporters.

While the police were chasing european nationalists around London, why weren't they bothered about real measures of policing, such as stopping

terrorism om mainland Britain. I mean, lets say 400 bobbies probably more but for arguements sake, 400 bobbies out to stop pure patriotism. Right, a huge pay packet, massive tax bill which we have to forfill, huge congestion of traffic in London as places were shut off and yet all for a gig. But recently three bomb site for mortars have been found around one of the worlds busiest airports and one near the Queens home Windsor, and yet MI5 have arrested noone or nobody. So to the state we seem more of a menace than the IRA and there left wing allies. Maybe one day we could put it to the British people and plainly ask - ' Will you allow these patriotic gigs '? 'And save thousands of pounds ? ', or, 'Shall we harass and cause mayhem to a oppressed minority'?. I know for my sake, I'd prefer reall policeman on our streets, out to smash marxist terrorism, stopping huge drug dealing in our cities, ensuring there is no, no go areas in Britain where British stock cannot walk freely. But thats just me, perhaps Joe Blooggs would prefer stopping a gathering of kinsman at a venue to pay respects toa fallen hero rather than stopping terrorism, but BRITISH OI! VERY MUCH DOUBTS IT!

And yet our government still persists in talking to the legal side of Terrorism - Seán Fein and disputing and squabbling over this and that. Even though as we've stated they have tried to cause more massacres on our shores. The loyalists in Ulster have been under this threat of terrorism for decades and have stood strong together and are beating it with their motto NO SURRENDER!

Another big debate within our world we are in is the battle of South Africa, the short fuse has been lit and the bomb will soon explode. The pictures the news media, both TV and Press, brought across to us of the sad fates of three proud Boer AWB men was a typical sign of the world wide oppression nationalists face. When do they show such gruesome pictures of ANC/Communist people getting slaughtered by Inkatha Zulus. They don't, only a small mention on the

and yet on our TV and in our press it showed a Boer a true son of Europe with his hands in the air admitting surrender to the troops and police surrounding him but cold bloodedly shot point blank in the head. The AWB have vowed to avenge each death of any AWB member and boy, they don't lie. Mr. Media - you may have a fat wallet for these scenes, but I hope your conscience is clear and maybe one day you will sleep in peace. Viva Eugene Terre Blanche!

Then we look across to the states, what have we there we have the zionist puppet Mr "Yes I smoked pot, it did me no harm" Bill Clinton as president. The scandal of his wife shredding important state documents and vast sums of money missing from business accounts is just the tip of the ice berg. The great US paper The Truth AT Last is great at pointing out articles as they say themselves ' News suppressed by the daily press '. Recently they have been exposing the life of Mr Clinton and especially the story over Clintons illegitimate child, he created during one of his many exploits with an african prostitute/drug addict. The Truth at Last points out now a large glossy type mag in the LA area has offered readers One million dollars if anyone can prove this little small half caste isnt Mr Clintons. Now downtown mags don't offer money for nothing. Its yet to become a huge news story but mark my words, it will. All this and hes the head of now the most powerful country in the world. Maybe Ross Ferot would've been a better President or David Duke.

Last but very least in this extended Editorial we would like to pay our respects to the four lost comrades namely Paul Casey, Brian & Darren Sheeley and Jason Oakes, sadly lost two years ago in a horrific car crash on the M4 motorway. Your spirits live on within us, Your burning flames will never dim, HAIL COMRADES!

See you next issue. Victory!

The Editor & Staff of British Oi!.

RIGHT HANDED NEWS!

Well whats going on within our scene, lets have a look.....

Hammer Records have been in touch with the latest developments from them, coming soon on the label is the debut LP from the enjoyable, no nonsense lyrics band 'Blank Generation' if you haven't heard the single 'Another Victim' get it. This debut LP should be out as you read this. Also a new Section 5 LP should be out within 2 months. The Straw Dogs have a new single out called 'Another World' much in the same vein as 'Dead On Arrival' but this isn't on Hammer but a yank label Krowbar. However Hammer are distributing it, for more info and sales, write to Hammer Records & Promotions at BCM BOX 1977, London, WC1N 3XX.

Helen of Oi! have also been in touch and tell us forthcoming releases include a single by Pressure 28 called ' You've Been Had' a LP by Cambridgeshires Another Mans Poison and also a split LP in the summer by the bands Braintance & Pressure 28. Helen Of Oi! can be reached at Flat 3, 15 Spring Gardens, Ventnor, Isle of Wight. H-O-O pointed out there label is strictly non political!

Meanwhile I.S.D Records the new label for the true Nationalist bands of the great island of Britain have reported to us a surge of support not through letters but the size of orders it has received for its first

SMASH COMMUNISM

Ian Stuart

release as mentioned previously in British Oi! No.27, the great Skrew-driver CD 'Hail Victory'. It has now gone in for its second pressing and out in roughly 2 months will be ISD's second release namely the long awaited third LP by Squadron 'Combat, Battle & Burn' which though due for release on Rock O Rama never saw the light of day. ISD will make no compromises to anyone and will release it with the lyrics in there original form, not the way Rock O Rama wouldve chopped and changed it to fit into Germanies tight race relation laws. The CD will include such great songs as 'Song for Europe (Der Sieg Wird Unser Sein)' 'Mr Media' 'The Elite' and lots more. Look out for it as it shows Squadron in a new light, still have some Skinhead type songs but the vast majority of the tracks are rock/thrash especially the track 'Death before Dishonour'. Buy it. ISD can be contacted through BM BOX 5608, London, WC1N 3XX.

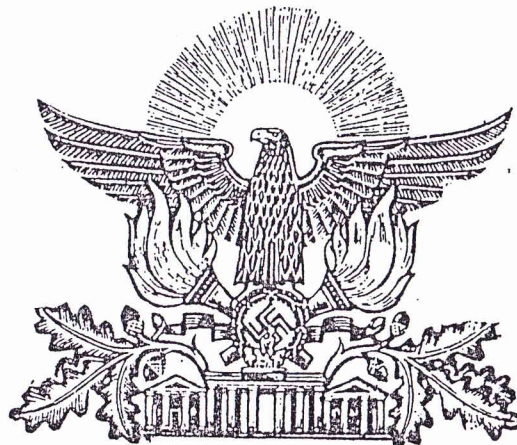

Razors Edge the 'making a name for themselves' band from the Birmingham area have just released there debut LP on new German Oi! label 'Di-AL Records'. The LP 'The Flag still flies' has some classic nationalist tracks on it. See record reviews. To contact Di Al write to PO BOX 2305, D91012, Erlangen, Germany.

New French Skinhead label 'One Voice' has two releases for sale namely singles by 5th Column tracks - Bordeaux and Tous Uns and 9th Panzer Symphony EP. Only 35FF inc P&P from D.Christian, 31 Rue des roquettes, 49500 Segre, France. More items expected to be on sale soon.

Another new label to have opened up for business is U.S.R Records of Germany, as of yet we don't know the address but forthcoming releases on the label include the debut by the hard hitting Czech band 'Buldok' amongst others. U.S.R stands for United Skins Records.

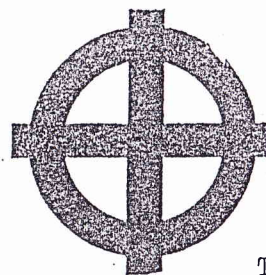

Another new label is fastly becoming a force to reckon with is the Swedish label 'Last Resort Records' who have four releases available namely :- Vit Aggression 'Death to ZOG', Division s 'Attack', Dirlewanger 'White Power, rock and roll', Odins Anglar 'Bla gult blod'. All of which have great covers especially the Division S cover which is also available in poster form and depicts a warrior slaying his foe, great artwork and a tremendous amount of colours incorporated into it. The Vit Aggression CD has a masked gunman on the cover, aiming his sub machine gun at you, this is a proper photo not a drawing with the title 'Death to Z.O.G.'. These can be bought via the great Swedish Skinzine/NS publication 'Blod & Ara' (Blood & HONOUR) along with an impressive list of NS marching music, speeches of the like of Robert Matthews, William Pearce and more. Write to Box 6035, S-151 06 Sodertalj, Sweden. Send a IRC for a list of goods. Staying in Sweden, patriots Ultima Thule made the British press in February when the Independant did a article about them and how they are spreading race hate through there music. Tell anyone who has listened to the music will know that Ultima Thule basically sing about Nordic Mythology and the magic that surrounds the topic. Whats wrong with a youth that love and are proud in there nations roots. Perhaps Take That in the UK could start singing about Arthur & the great saints of old. We beleive the only reason the press dislikes the band Ultima Thule is because they sell vast amounts of records which promote pride, and nordic pride at that, not the systems rhetoric of the perfect multicultural concept. So lets hear a cheer for Ultima Thule. If you'd like to contact them for news, merchandise then write to :- Box 3065, 61103 Nykoping, Sweden. Staying in Sweden band news is Dirlewanger have split up, not sure why but

they have. Swatika the band are busily getting there act together for forthcoming gigs and recordings after a short halt to there schedule as one of the lads was imprisoned.....there are two new bands who have emerged also called 'Brigad Wotan' and 'True Blood'.....Rumour also has it that Division S are working together with U.S band The Bully Boys.....The Swedish NS movement also has a new national contact address, White Aryan Resistance can be contacted at Box 2, 232 21 Arlov, Sweden, this is shortly known in Sweden as VAM!

Over to the U.S of A. Well at present I have no new news to report from the new record label Resistance Records except Bound For Glory should've recorded there new LP for them by now called 'The Iron Eagle Flies again'. I would've reviewed some of the releases from Resistance, but, as of yet I haven't received my order even though it was three months ago.

White Terror however have been busy and have released 4 CDs now, One as previously mentioned, the comp White Terror 'Declaration of War Vol.1' but now also CDs by The Midtown Bootboys 'The Time will come', Das Reich 'Triumph of the will' and Bound for Attack 'the CD co-done by both Bound For Glory and Brutal Attack. We can only guess the Midtown Bootboys CD is of the demo of theres which has been knocking about for some years, but really quite brilliant with the classic track 'Jutice - At the end of a rope'. They also have two tapes out - Vanguard 'Its time' and 'White Riot - Victory'. The Vanguard tape is the proposed LP due out on Skull Records but as they were ripped off, they have released it professionally on tape. Write to PO BOX EO, Garden Grove, CA 92642, USA or from the Canadian Wolfpack Services at PO BOX 8, 13143 Monk, Pierrefonds, Montreal, Quebec, H9Z 1TA, Canada. CDs cost 26 dollars, tapes 12 dollars.

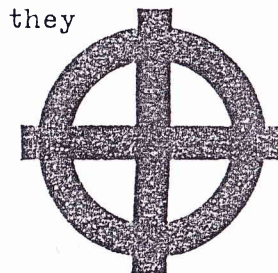

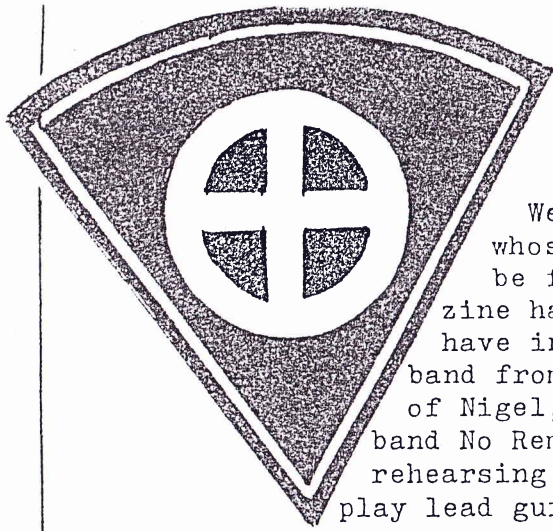

Its a good thing to hear of non Skinhead bands getting there acts together and promoting the views of Nationalism. The surprising news of ever popular Hardcore band 'Carnivore'. They have a track called 'Race War' which details a war in the not to distant future. They sell

T-Shirts with the Afrikaner Symbol (3-7's) on the front and on the back theres a drawing of whats supposed to be a Carnivore gig with a large audience of Skins and Metalheads all with the Afrikaner Resistance symbol on them. Carnivore aren't just in it for the shock value either, the lead singer Peter Steele is proud to tell his aryan beliefs to people, if asked on the matter. Good on you Carnivore, another band in the same vain and also perform the same 'Race War' track are thrashers 'Type O Negative'.

Thw.Nationales Presse Archiv (National Press Archive of Postfach 533, 15230 Frankfurt/Oder, Germany, were recently in touch and asked if they could have a mention to promote there project. The NPA are aiming to build up a huge archive of nationalist material from zines to books of every topic involved within the policies of National Socialism. It currently is setting up this aim, to combat the promotion and distribution of left wing material, initially to enlighten the German youth but with a aim to broaden its horizon with your help. Why not write to them and find out more. Send a IRC for info.

Have any of you out there listened to the Heavy Metal band 'Manowar', there lyrics are very stirring and heavily promote a sense of Nordic pride. British Oi! ventured to see them recently in Milton Keynes. Manowar have just completed a huge European Tour - The Agony & Ecstasy Tour, at Milton Keynes they dedicated a song to all in attendance who weren't Heavy types. it went out for all the skinheads that they welcome at there gigs and to all true europeans who they admire! They then went into 'Hail to England'. What a night, one to cherish. Manowar are officially the loudest band in the world!

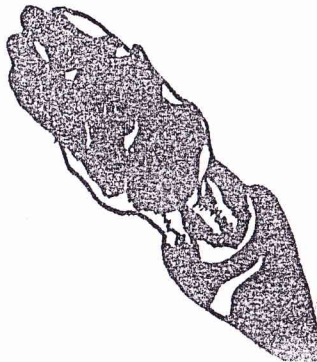

NEWS

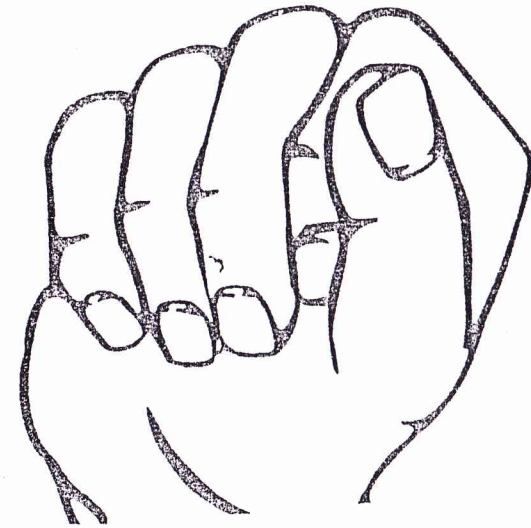

Welsh heroes 'Celtic Warrior' whose address and lyrics can be found elsewhere within this zine have been busy lately, they have increased the size of the band from 4 to 5 with the addition of Nigel, the guitarist of Skinhead band No Remorse. Nigel has been rehearsing alot with the band and will play lead guitar. He has been a inspiration in the way there new material is turning out. New tracks by Celtic Warrior include the catchy White Reich, Brand New Day, Traitor, Land Race and Heritage, Fatherland, Wrath of Zion and a dedication song that goes out to one of the lads who died in the infamous crash of Violent Storm, its called 'We'll never forget(Jason Oakes R.I.P). Celtic Warrior were due to record for German label 'Skull Records' but have heard about there bad reputation and have signed a deal with new German label Di-Al. It should be out within 2 months as recording of the LP should be happening, as you read this. Catch Celtic Warrior if they are playing near you as they are improving and blossoming into a No.1 Nationalist group.

Staying down in Wales, British Oi! staff placed flowers at the grave of lost comrade and bassist of Violent Storm, Paul Casey on the recent anniversary of the crash. Wreaths laid at all the lost lads were laid by the Cardiff Blood & Honour Crew & Celtic Warrior. They will never be forgot.

A new zine has come to the attention of British Oi! and is well worth seeing and reading, its called Pitbull Skinzine and is available from Alex Billochon, 20 Rue Jeanne D'Arc, 59260 Lezennes, France.

Well we all thought Gary Glitter was bad for making Comebacks but Brutal Attack sure do take some beating. It was said at the time when the great CD 'Ressurrection' by B.A was released, it was there last. Well they're back! Currently being recorded is Brutal Attacks 8th LP entitled 'Conquest'. 12 tracks are on it and its said to be bloody good. One track to watch out for is a ballad called 'Always Near', a great song all about Ian Stuart this track will also appear on the forthcoming I.S.D compilation LP of songs dedicated to Ian.

Squadron are busy getting material also for there 4th release and plan a single on new US label Krowbar.

British Oi! has received several letters asking about how to get vinyl releases as they have no CD player. Well basically, the larger labells don't use vinyl anymore. Labels such as ISD, Skull, Rock O Rama etc only use CDs. Some of the smaller mostly Oi! labels do vinyl but it is hard to come by, basically as a CD is cheaper to produce, although its price wouldn't indicate so! CD players can be found at every electrical store for as little as £80-£100, and most Stereos have the facilities to adapt to one. So keep up with the times and get hold of one now!

Before we end this issues news pages, RID mail order have informed us that they have two new t-shirt designs available, one a new Skrewdriver design, the other a I.Stuart memorial shirt. R.I.D have also redone the original Blood & Honour shirt, the one with the big red block across the chest with the large three 7s. R.I.D catalogues can be obtained for the price of a SAE to PO BOX 249, Derby, DE219EG.

Thats it till next time, See ya.

Reviews

Well we missed the reviews last issue
 and we apologise to the bands who we had
 promised to review. We've included
 everything we've had lately in this issue.
C.Ds

DAS REICH 'Triumph of the Will' - White Terror Records

A debut CD from one of the new up and coming US
 bands. Well worth getting hold of. They sound a cross
 between Bound For Glory & Skrewdriver. 10 tracks
 with the best tracks being 'Ballad of Earl Turner' &
 'A gun in my hand'. 9/10.

SKREWDRIVER - 'Hail Victory' - I.S.D Records.

Previously reviewed but it was sometime ago, now
 released I thought I'd give it a mention. Ians last
 ans some say best. 12 great tracks including the
 great 'House of Treason' 'Old Albion' 'White Noise'
 and more. £12.50 inc P&P from R.I.D products. 10/10.

RAZORS EDGE - 'The Flag still Flies' - Di-Al Records.

A great debut LP & CD from this good Birmingham
 based band. Also launching Di-Al records. 10 great
 tracks of rocky/Oi! music which includes crowd
 favourites such as 'Ulster Freedom Fighters' 'Jobs
 not immigrants' 'If you're Red' 'No Room Here' and
 more. Get it as Razors Edge are a force to be
 reckoned with! 10/10. Razors Edge can be contacted
 at PO Box 3324, West Bromwich, West Mids, b70 7NP.

HEROES IN THE SNOW - Viking Power Rock n Roll -
 Ragnarock Records Sweden.

Dirlewanger under a false name with there third CD.
 A false name as they are trying to enter the shops
 as a patriot band as Ultima Thule have done success-
 fully. This sounds like a cross between the Rolling
 Stones and AC/DC but with racist overtones. 10
 tracks that include 'Hail all the comrades' 'Crossfire
 'Riot' 'I stand alone' and more. Very high quality
 recording. Get it. 9/10.

VIT AGGRESSION - 'Dod at ZOG' - SCEA Records.

A long awaited debut CD by one of the most popular
 Swedish bands. A very good cover and a very good CD.
 12 tracks all in Swedish unfortunately but good
 musically. Tracks include 'Paraiter' 'Fosterland
 vakt' etc.

Vit Aggression cont...

other tracks 'I vilddjurets skugga' and more. A good rocky/Oi! CD 8/10.

DIVISION S - Attack - Blod & Ara.

A great CD from a fast progressing Swedish band. A great cover design of battling warrior. Only 9 tracks but its well worth getting. Tracks include 'Attack' 'Den Nya Avelin' 'Valhalla' 'En Hylling (For Bob Matthews)' and lots more. A very well produced rock band, heavy at times. Buy it. 10/10

BARSARKARNA - 'Ode to Ian' - Ragnarock Records.

A mini CD of only three tracks but a fitting small tribute to Ian Stuart. The first track 'Ode to Ian' is a smashing song and spells out Ians courage, his honour, his life. The second track is a remake of the S'driver classic 'Land of Ice' and the third 'Rape & Plunder' a vikings story! 3 corks. Get it. 10/10! All these CDs are available from Blod & Ara, Box 6035, 15106 Sodertalje, Sweden, priced £13 inc P&P.

ENGLISH ROSE - 'The Flame still Burns' Skull Records.

At last the CD we've waited nearly two years to see the light of day is out. English Rose have progressed since their debut LP Never Be Silenced and it shows on this CD. 10 tracks which include 'AWB' 'Rock Against Communism' 'Alive & Kicking' 'No fried of mine' and more. Available for £12 from Rampage Skinzine, address elsewhere. Get it. 10/10.

Singles & Demos.....

Odins Law - Demo.

A great 5 track demo from a up and coming Canadian band, includes tracks 'White Revolution' 'An eye for an eye' Back with a bang'

and the best track of the demo 'Erik Banks Lives On' a good tribute to the former BFG vocalist - murdered by scum. Odins Law are rumoured to have signed with Resistance Records but nothing on paper as of yet! (9/10)

NO REMORSE - European Skinhead Army - Demo for LP

Not a bad demo for the forthcoming LP. Some of it traditional No Remorse type stuff but some of it rock n roll 'ish and some rock. Quite a good blend. Tracks include 'Our honour is true' 'Another one bites the dust' 'Flame that never dies' written by Ian Stuart and more. 8/10.

STRAW DOGS - Another World - Krowbar Records.

A good two track single by the London Oi! band. In a similar vein as 'Dead on Arrival'. tracks are Another World and Millions like you. Get it. 9/10.

NOIE WERTE - Ein Harter Weg - United Skins Records.

A great track from Noie Werte is like a breath of fresh air. Now two tracks of them on this single is great. Tracks are Ein Herter Weg & Danke. Danke is my favourite out of the two. All profits from this EP will help pay fines of those imposed on bands like Radikahl etc. Buy it for £3 from Postfach 29, 15742 Wildau, Germany. 9/10.

BLANK GENERATION - Another Victim - Hammer Records.

A great single from this punky/Oi! band from High Wycombe. Another Victim details how a sick child molester should be hung up high. Great! The other track being 'No Consolation' A single that needs to be in your collection. 10/10.

BOISTEROUS - Harry was a hooli - Hammer Records.

Its not like British Oi! to critisize but this single says nowt! Two run of the mill Oi! songs from this Geordie band. Harry was a hooli & He died hoping. If you like Oi! you'll like this. I didn't. 4/10.

BRAINDANCE - Streets of Violence - Helen of Oi! Rec.

A well put together three-track EP by another Skin/Punk band, fast, furios, and good, tracks are Dirty Punk, Streets of Violence & They judge us. Get it. 8/10.

CLOSE SHAVE - 'Attack' - Helen of Oi! Records.

One of the worst singles I've heard to date. Thank god lurch didn't sing for them from the start. They've never been the same since Fluffy 'Gravel Voice' left the band. Well this single has no high point, only lows. The song Attack is about when Close Shave had a fight and got battered at a gig and as they can't accept that they have sang saying the other lads, who happened to be Skrewdriver Security are a bunch of cowards, I believe this was not so as we saw Lurch existing the hall fast with blood all over the place extremely fast, to slag down lefties etc is OK, but fellow nationalist skins is, well a disgrace. No wonder at a gig not long ago the crowd threw bottles at the band and chanted 'Razors Edge, Razors Edge! 0/10

British Oi! would've brought you more reviews, especially of the releases of Ristance Records material but as of yet after 2 months of ordering we haven't received anything, as of yet we are not sure if the letter and order arrived to them but its being looked into!

RESISTANCE RECORDS have a glossy magazine out now named simply ' Resistance ' and is quite a read. Its the White Power scenes Kerrang in quality etc. Covers news of all of there bands and interviews with Aryan, Das Reich, Swastika and more. To buy it, its 2 dollars worldwide! From PO BOX 24700, Detroit, Michigan 48224, USA.

C O N G R A T U L A T I O N S

British Oi! wishes the best of luck and congratulations to Flubs (Squadron Guitarist) & Fran who were married on St. Georges Day (April 23rd) in South London.

STIGGER

Well British Oi! brings you yet another exclusive article, its a indepth interview with one of Blood & Honours most talented guitarists, former Skrewdriver member Stigger, you know, the one with the long hair! Well stigger is in high regard in our movement after his deep involvement with Ian Stuart and there classic CDs 'Patriotic Ballads' and the heavy music of White Diamond. Well lets see what stigger has been upto.....

1. Could you tell us about your recent trip to the recording studio with Germans 'Noie Werte' ?

Yes, we went into the studio at the end of March, it is the follow up to the German British Friendship CD, with Noie Werte, me on guitar & Keyboard and guest vocals by Ken McCauliflower of Brutal Attack.

The tracks are called :- Freedom Fighters, Stalingrad which is a awesome song, a cover version of Tommorrow belongs to me which we made a little heavier, and also a cover of Better Dead Than Red which is worth listening to, if only for the solo which was played by Jimmy of Squadron. He had 5 seconds to fill in with a solo and you've never heard so many f****g notes in your life. I swear he took his shoes and socks off!! Flash bastard!

Another song Ken and I worked on after a crate of Hoffmeister, was one that Ken had the lyrics to a song, but it had lost its tune over the years, and it was too good a chance to pass up, so being the patriotic chaps we are, we gave it a new lease of life, are are very proud of the end result. The song is called 'Tell England that I love her' and its a cracker.

We finished the album off with an acoustic version of German British Friendship which was just me and Steffan and is a fitting song to end a great time with our German friends in the studio. I don't know when the release date is yet, thats Steffans decision as he financed the whole project and the record label has only just formed, so I don't know much on that, but its run by our own people so I hope they will give us value for money and keep the costs down as much as possible!

2. Rumour has it that you and Ken will record, could you tell us if the rumours are true ?

As I have already stated, we only recorded one track together (Tell England...) but it is possible that in the near future, towards the end of this year, I will go into the studio with Ken and record an album of folk orientated music along the lines of 'Tell England'. I have lots of music written and Ken writes some brilliant songs, and his enthusiasm in the studio tends to rub off on you so it seems like a natural progression to record something together.

3. Is it true you are going to form your own rock group which will do a few Skrewdriver numbers ?

I'd love to form another band or join an existing one but its finding the right people to work with and once you've taken away all the shitheads, the backstabbers and time wasters, that doesn't leave alot of people. I would like the sound to carry on from 'Hail Victory' where its more rock orientated.

As far as playing Skrewdriver numbers, I'm in two minds.

Alot of people and bands think its wrong for others to do Ians songs, which I tend to agree with if most of the set consisted of Skrewdriver songs just for self promotion. But the bands I have seen or heard of covering a song have only done one or two and have been done in the spirit of Ian, and a tribute to him, and everyone enjoys to hear them live again, so I see no reason not to play them. After all, it is another way Ians words and music will live on forever.

4. Since Ians death, how do you feel the movement has reacted, progressed/collapsed etc ?

I think it is only now that the state of the movement be assessed. I think it has sunk in the way that Ian isn't around anymore, and that if anyone was going to drop out they would have done so before now.

I personally don't know anybody who has called it a day because of Ian, quite the opposite infact. Alot of people who knew Ian are only know just learning his beliefs and have asked for CDs and want to come to gigs, since alot of people couldn't pay there respects at the time.

Everytime you see a documentary about the right wing in any country, be it Britain, Germany, USA etc you will always hear the name ' Skrewdriver ' mentioned, or at least see a 'Skrewdriver T-Shirt'. This is the extent of Ians influence on the white youth of the world. He did and will with his songs carry on doing more than anyone else, also its upto to us to make sure this gets carried on, if we don't Ians work will have been in vain.

5. As a Skrewdriver guitarist, which track is your personal favourite ?

From the older stuff, I love 'Showdown' 'Streetfight' 'White Rider' and 'European Dream'. The latter two I never got to play live, which is something I'll always regret. From the albums that I participated in, I have to say my favourite is 'Night Trains' from ' Hail Victory'. It was so easy to record with Ian and he captured the spirit of the song perfectly.

It has been said that Ian, being a Englishman, that how could he write about the lives and feelings of the German soldiers in such graphic detail ? The man was a genius!

Other favourites of mine are the ' Patriotic Ballads' version of ' The Snow Fell ' 'Takin our Freedom away' from the Klansmen LP and ' Outlaw ' from White Diamond. That about covers them all.

6. Have you any plans to do a solo LP as your voice was well received when you sang and played the tracks 'Wishing Well ' and 'No Mans Land' ?

I hate singing. I don't mind doing backing vocals or working out a tune, but my voice sounds like someones biting my nuts, so I'm not too keen. The only reason I did 'Wishing Well' was because it was too high for Ian to sing, so I got conned into it (Thanks Pal!), but seriously, I'd rather write the music and play guitar.

7. What are your aims over the next 12 months ?

Over the next 12 months, I hope to play live with a new band, also to have 2-3 recordings out. As I've already mentioned, the recording with Ken from Brutal Attack, and a third German British Friendship, so I'll keeping very busy.

8. Lastly, have you anything else left to add before we conclude this interview ?
